

Mocktail Competition

Objective

To demonstrate that non-alcoholic drinks taste great and cost less.

Materials Needed

- Plastic cocktail glasses or small Dixie cups
 - Drink ingredients - have a few different base choices such as cranberry juice, club soda and daiquiri mixes.
 - Blenders and lots of ice
 - Tables and signs
 - Voting station, ballot box and ballots listing the entered drinks
-

How the Activity Works

The mocktail competition can be done in many ways. The most basic method is to have specific people representing groups in your school or just have the teachers compete.

1. Each contestant would choose a drink they would make during the competition and their drink would be rated by the spectators.
2. The tally at the end would indicate who had the best liked drink.
3. You could use this drink as the next dance's special drink.
4. Consider giving a small prize to the winner or naming the drink after them.
5. You can also make copies of all the recipes entered in the competition for spectators to take home.

Mocktail Recipes

No Crash Splash

4 litres chilled apple juice
1 bottle lemon juice
2 litres club soda

*Serves 32 – small cups

Piña Coladas

1 bottle Piña Colada mix
1 bottle pineapple juice

Blend ingredients in blender with lots of ice. Follow Piña Colada mix instructions.

Margaritas

1 bottle Margarita mix
1 bottle 7-Up

Blend ingredients in blender with lots of ice. Follow margarita mix instructions
