

# Safety Scenario, ATV

---

Mark got an all-terrain vehicle (ATV) for his birthday from his father and he loves to ride it. His father says he can ride his ATV anywhere on the dirt trails, but not on the road. Mark assured his father he would follow the rules.

Mark's friend Bobby also has an ATV and they often take rides along the trails together. Bobby decides to ride on the roadway today since it seems clear and cars rarely use this particular roadway. Bobby dares Mark to race him on the roadway. Mark decides that would be too dangerous and says no.
