

# Designing New Road Signs

---

## Scenario:

The Ontario Ministry of Transportation is planning to update road signs to be more reflective of new technologies and distractions. The Ministry has asked you to submit two new signs that can be used to deter risky behaviour. Your sign concepts must meet all necessary regulations.

---

## Instructions

- Design two new road signs.
  - Prepare a two to five sentence paragraph to accompany your sign concepts. Explain what each is trying to prevent and why the Ministry of Transportation should accept it. Suggest where the road sign should be displayed in the community.
  - Work individually.
- 

## Expectations

A successful road sign should:

- Have colour;
  - Be realistic and logical;
  - Be original;
  - Be grammatically correct.
- 

## A successful accompanying paragraph should:

- Explain what risky behaviour you are trying to deter;
- Explain where it should be hung and why this location is appropriate;
- Be grammatically correct.
